

Client Testimonials

We were delivering a customer service training program in the town centre. It was important that the venue matched the service excellence values and content of the course. The team at Summit Studios exceeded expectations-friendly, flexible, reliable and consistent. I would highly recommend this venue.

Susan Williams, Company Director, Vision On Training

From the first contact Danielle and her team demonstrated a willingness to help and support us with some unusual needs. They have done an excellent job in accommodating our very specific requirements for research facilities and were quick to offer solutions.

The recruitment process was smooth and I always felt that they were fully in control of the project. They alerted us to any issues promptly so that we could overcome them fast. Quality of recruitment was excellent and the contributions in our group sessions were a credit to the high calibre participants, who were also very representative of the target.

We really feel we have found a "home" for our qualitative research needs in the London area and look forward to the next project together.

Caroline Dennett, Director, Clout

"We have recently worked with Summit Studios and we were very pleased with their level of professionalism and efficiency. Danielle is a dynamic and proactive person, more than capable in dealing with complex recruitment criteria and offers a totally flexible and accommodating environment to work in. The rest of the staff are extremely helpful, patient and pleasant. The studio is conveniently located at the heart of a very busy area which is a bonus. We highly recommend Summit Studios!"

Stergios Bitsios, Director, Design Perspectives
